## Blindness Scare Ungrips St. Mike's

Jerry Atrix - Fake News Staff

St. Mike's student Martin Hitchon stood looking forlorn by a garbage can last April. Inside the can was the culmination of four years of collecting periodicals. "It's sad to see

them [the magazines] go but I can't risk it" said a disappointed Hitchon "My mom always said you've only got one pair of eyes so you've got to take care of them. Of course she warned me about this going blind thing when I was twelve".

Hitchon was just one of

many students who threw out his porno last spring when reports circulated that ten students were rushed to hospital with sudden blindness brought on by excessive masturbation. The stories seem to have originated in late March of last year. "They say the one guy's eyes

## Startling Discovery at CERN

John Doe - Ace Reporter

Something amazing happened last month when scientists at CERN turned their instruments on one of their colleagues. The person under study was Dr. E Smithsonian engineering science graduate from U of T. Using the Negative Energy Refraction Detector (NERD) the CERN scientists scanned samples of Smith's DNA. "The results from our tests with NERD didn't have any special results but when we used MEGANERD [Muon-Electron Giant Anion Negative Energy Refraction Detector] we found levels of coolness above what we could rule out

as instrument error" said representative of CERN. This is very exciting for the Eng Sci social [ha ha] Community because just last year there was no evidence to support the theory that Engineering Science students had any concept of style

or coolness.

Skeptics believe that these measurements are in fact the result of instrument error. Although this is a ray of hope for Eng Scis it will take more time and tests to give "Eng Sci Coolness" any sort of lasting credibility.

## A Memo from the CEO

Well, this is it, whether you like it  
or not. The first Toike of the year  
is finished. Ahhh.....

I guess I'll start by intro-  
ducing myself to all of you  
readers. I am Adam Walker Comp  
OT2 and CEO (thats Chief Editing  
Offender) of the Toike Oike, a  
damn fine newspaper as I'm sure  
you will agree.

Now that that is out of the  
way I will be a real official editor  
type and comment on something.  
I really don't have too much to  
comment on yet. I mean there is  
the raise in tuition but that isn't  
fun to talk about. There is that  
new building they're building  
across the street but most of us  
will never have class there  
(because we will have graduated).

And there is that other

building the one on Spadina and  
Harbord. Why does it have a big  
"O" suspended over the street?  
One guy speculated that it was  
because we are the University of  
TorontO but that makes about as  
much sense as my Engineering  
Society and the Environment  
exam.

Nobody should get too  
offended by the Toike this year. I  
won't let anything mean get  
printed but anything that's funny  
but isn't evil, no matter how  
raunchy, will get printed. I hope  
you like what you read. If you  
want to contribute for October's  
edition come on out to our  
meeting the Wednesday after  
F!rosh week.

were like bulging out of his head but he like couldn't see nothing," reported one St. Mike's student. Another student told a similar story, "This guy was all freaked out and running around shouting 'I can't friggin see'. He must have been pretty freaked out by it all 'cause he didn't even put his Johnson away".

Representatives of the college deny these reports. "There are no confirmed reports of blindness stemming from masturbation by any St. Mike's students," said Harry Palm the public relations person for St. Mikes. "Anyways, you can't go blind from jerking it. Can you?"

Another camp of students believes that these reports were part

of a conspiracy to dupe St. Mike's students out of their hard-earned stroke-books. "With all of these people throwing out there nudie books someone is bound to pick them up," said one conspiracy theo-

*"...the one guy's eyes were like bulging out of his head but he like couldn't see nothing"*

rist. "Maybe they planned it from the start". In an attempt to verify this, our investigating team waited behind after Hitchon threw out his collection.

Much to our surprise it

was Hitchon himself who came and picked the porno out of the trash. "I couldn't bare to see them go," said Hitchon.

The origin of these stories is unclear but evidence points to their being just rumors with little or no basis in fact. A pole of local hospitals showed only around three hundred masturbation related injuries in the months of March and April, none only three of them resulting in some form of blindness.

"Most masturbation related injuries are pulled muscles. These can be avoided by stretching before you go to town on your 'fireman'," one doctor told us.

# The Toike Mailbag

Dear Toike

What is happening to the Eng Soc couches these days? One day I was desperate! I had 50¢ and I absolutely needed a Diet Coke. I searched through the couches one after another but did I find a dime? Noo!! Nothing but a nickel, 2 pennies and a hair ball maybe, but no dime!

What happened to the treasure trove we used to call home? We need to make it mandatory that all Junkies [jun'kees - (slang) students who spend way too much time in Eng Soc] keep an

excess of change in their pants' pockets to reinstate the wealth of coins that were previously to be found in between the cushions.

I hope you found this anecdote both pointless and horrifying.

Anna,  
We here at the Toike would like to do something for you. But you need to be the one who makes the decision to change your life. Seriously, you spend way way too much time in Eng Soc. My only

## 'Twas the night before F!rosh Week

By bob J.

*This month's first submission is a poem by bob J. Comp OT2+Whatever called "Twas the night before F!roshweek". It is an epic tale of triumph over strife. Bob's tale will warm your hearts and make you think a little about yourself.*

'Twas the night before F!rosh Week  
And all through the Cup  
It was getting pretty hard  
To keep everyone up.

Bnad wake-up was still  
Several hours away  
And the F!rosh leadurs' thirsts  
Were getting quite grave.

No BEvERage could save us,  
The tap had run dry.  
So soon had we exhausted  
Our liquor supply.

When what to our inebriated  
Eyes should appear  
But a green rubber dude

With a keg full of beer!

He smiled and he winked  
As he set the keg down  
And he poured himself a stein  
Of that sweet Honey Brown.

We moved out of his way  
And found him a seat  
And told this kind gent  
To put up his feet.

"Please, sir," begged an Indy,  
"Can we have some too?"  
To which he said, "There's plenty  
For the lot of you!"

He pulled open his coat  
And gave us a show:  
Inside it was like  
A frigging LCBO!!!

He placed a full bottle  
Into each outstretched hand.  
As the passed 'round drinks  
This song he sang:

"Drink whiskey, drink vodka,  
Drink B-52's.  
Drink moonshine, drink wine,  
Drink unlabeled booze!

Drink peppermint schnapps  
Amaretto and gin,  
Drink rum, margaritas,  
Let the fun begin!

Tequila, kahluah,  
Long Island ice tea,  
Brandy, martini,  
Rye, daiquiri,

Champagne, caesar,  
Goldslager, cider,  
Sherry, and scotch,  
Liqueur or screwdriver

Chug them back, bottoms up,  
Come on, let's get sloshed!  
Cuz you won't want to be sober  
When you see this year's  
F!rosh!"

Then he staggered away  
To his red rubber mule  
Leading the Bnad  
As they woke up the Skule™.

How the tiny F!roshlings  
Gazed on in wonder  
As their drunken leedurs  
Staggered and blundered

They thought, "What drunkards!  
Will that soon be me?"  
[maniacal laughter] Welcome to  
Skule™  
Class of OT3!!!!!

# Experiment

By Woody Alek

*The second submission is a short play by Woody Alek. Alek spins a great tale of passion. "Experiment" is one of those plays that you will only read once for fear of reliving ruining the experience of your first read. The revue board of the Toike Oike suggests reading this play as a drinking game. Whenever the characters take a drink, you take a drink. Enjoy the play.*

(Two students sitting at a cafe, ready to work on a special project. They look alike and talk alike.)

Mr.A: Hello there my friend.

Mr.B: Hey..what's up? Did you prepare the experiment?

Mr.A: Yeah, it took me a while...

Mr.B: Alright, so what do we experiment.

Mr.A: The influence of a steady income on the thought process.

Mr.B: Sounds good..I'm thirsty. do you want a coffee?

Mr.A: Yeah..thanks

Mr.B: What kind?

Mr.A: Oh, it doesn't matter, anyone will do.

Mr.B: Great...(to waiter) Two pints of Rickards please.

Mr.A: Ok, we have \$250 living allowance per week and we will compare that to \$1000 per week, as our first experiment. The engineering society will forgo beer expenditures for a two day period to fund our little experiment.

Mr.B: What do we buy with that money? it will have to be monitored.

Mr.A: Not really...Eng Soc will fund us, they agreed to do so already, but they buy all their beer in advance , so they'll simply donate \$1250 worth of beer.

Mr.B: Oh, I see. that's fine. (the beer arrives) Do you want something to eat? (Mr.A nods, Mr.B to waiter) Two more, please.

Mr.A: Now it remains for us to find our subjects. I have two names here. One is a woman and the other a man. Wait, that shouldn't be...should it?

Mr.B: Yes, they must be very alike. sexually and otherwise.

Mr.A: True...very true...well, we can't get anyone on such short notice...what'll we do?

Mr.B: It seems to me that we are going to have to sacrifice ourselves for this experiment. I just hope we can be objective enough.

Mr.A: We can be...of course. I'm objective by nature. Just last week for example I made a sculpture out of beer labels and I strongly criticized myself. Almost made myself cry as I remember.

Mr.B: OK, then it's agreed. (they finish drinking, another two pints are

brought in, Mr.A signals for two more) What's next?

Mr.A: Well, It leaves us just the decision when to begin our experiment.

Mr.B: Tomorrow....at the rising of the cock....

Mr.A: what?

Mr.B: of the sun....or at the cock's crowing.

Mr.A: Cheers to that. (they finish their pints)

Mr.B: Anyhoo, I feel very excited about this experiment. Very excited. Who will have the \$250? and who will have the \$1000 worth?

Mr.A: hm...

Mr.B: Should I have the \$1000 and you the \$250, or should you have the \$250 and I the \$1000? ....Maybe the latter...

Mr.A: Yes...(long introspective pause)...yes. (2 more pints are brought in)

Mr.B: Well, cheers.

Mr.A: Cheers. By the way...what was that guys name...the one who I talked to today at the Eng Soc.... About the...the thing.

Mr.B: Oh! yeah...it was doctor...

Mr.A ...Mr....

Mr.B: ....Mr....

Mr.A: ...Sam?.

Mr.B: .....Mr.Sam,.. Mmmmm.....

Mr.A: Mr.Sam Mmmmmmmmm....

Mr.B: ....Mmmmmooooooooooooo, Moooooooo.....

Mr.A: Yeah...anyway...what was I going to say?

Mr.B: That you feel very excited about him.

Mr.A: Yeah, that I feel very excited about it all. very excited ...

Mr.B: Yes...(long introspective pause) ...Yes (they drink, and two more pints are brought in.)

Mr.A: Cheers.

# Ken Miura's Guide to First Year

By Ken Miura ENG SCI 0T1

Some of you frosh, and maybe some other confused people, might be wondering to yourself: "holy shit! What the hell am I doing here?"

Good question! So you too are grappling with the age old question. Do you really belong in engineering? Well, for a lot of you, you won't have to worry since someone else will make the decision for you. But up until the point in time you get permanently drafted into the ever growing herd of burger flippers, here are some suggestion you may want to take to heart:

## On Free Food:

This is where it's at folks. Who said there was no such thing as a free lunch? Get as much of it as you can. Due to the correct image that an engineering student's ground state is starved, many people use the promise of free food to lure students into volunteering for their weird and evil experiments. They get slave labor, we get free food. It works for me! Kinda like the donkey being led by a carrot. On the other hand, it is also possible to grab a muffin or two while passing the blue room on most days with no strings whatsoever, but don't blame me if it gets yanked from your hand. Just eat it as quickly as possible.

## On self esteem:

You == stupid  
Now repeat as needed at

least ten times a day.

## On drinking:

Drink eight glasses of water a day.

**On killing altering others health**  
: [ED: I've never met Ken... perhaps thats for the best]

It is most efficient to use fragmentation weapons when there are many targets within close proximity to one another. The delivery method depends on the location of the objective. If line of sight can be achieved, a propellant driven projectile is

best, with a detonate on impact trigger.

In an unrelated matter, the top of con hall has a great view of the U of T campus.

## On something random:

This bag is not a toy, please dispose of properly.

## On recreational drinking:

No time, just get hammered during lunch and attend your lectures afterwards.

Let me tell you, lectures gain a whole new level of spiritual enlightenment. You feel absolutely energized, with a new perspective on life! It doesn't get

## Music Revues By Dead F!rosh

Before you spend your money on some CD's, you may want to read the following to find out what's hot and what's not. These CD's are rated on a scale of 1 to 10. 10 being the hottest, and 1 being shite.

### -10 Ricky Martin. Self-titled

Everything went completely wrong when the New Kids on the Block hit it big. I bet Ricky was like, if I get plastic surgery and learn how to sing, I'll become rich, famous, and have all the thirteen-year-olds I want. Look at this guy, you think this guy is smart enough to write his own music. Just remember what happened to MC Hammer!

**2.3**  
**Jay-Z**  
**Vol.2...Hard Knock Life**  
*Dead F!rosh's original revue of Jay-Z's CD was pulled because the revue board thought that it was way over the top. Suffice it to say that Dead didn't like it. One thing we can tell you is that Dead F!rosh "gave this a 2.3 cuz [he would] rather see this bitch at #1 than Ricky."*

### 8 Sarah McLachlan Mirrorball

She's Canadian, she's hot, and

she's hot. This new CD features live material from her Lilith Fair tour. Sarah has a knack for writing good music to masturbate to. I give it an 8, and not a ten cuz my NEC CD-rom doesn't play the macromedia, or enhanced CD stuff.

### 10 Black Sabbath Reunion

*Note: Once again the revue board has asked us to edit Dead F!rosh's work. We can still print most of this revue but objectionable parts will be replaced by asterisks*

Every time I listen to Black Sabbath, it reminds me of when I was a kid listening to Black Sabbath at 5 a.m. \* \* \* \* \* (you think I'm kidding!). I also had the privilege of seeing them at SkyDome this year, I was \* \* \* \* \* very \* \* \* \* \* that concert. Buy this album now!!!

## WOMEN SEEKING MEN

## JOE SUEHANSEN

I'm a 21 year old student and I have a problem. It seems that every time I go out with a girl, I get dumped, all the time. I just don't understand women! I mean, they're always complaining how they don't like it when I "ejaculate in their hair." Am I missing something here?

-Need to be informed

I think you need to ask yourself a question: would you like it if a guy ejaculated in your hair? Maybe, you should try it so you'll know how your girlfriends felt! I mean, the nose, the ears, the

mouth, but not the hair. Just think: you spend two hours fixing your hair all day and some guy decides to blow his load all over it. It is just wrong.

-Joe Suehanssen

I am scared about all of these blindness and masturbation stories that I have heard. Are they true? If so what should I do? I am a big loser and I cannot get girls. Masturbation is my life. It's what saves me from depression.

-Scared and Lonely at Ry

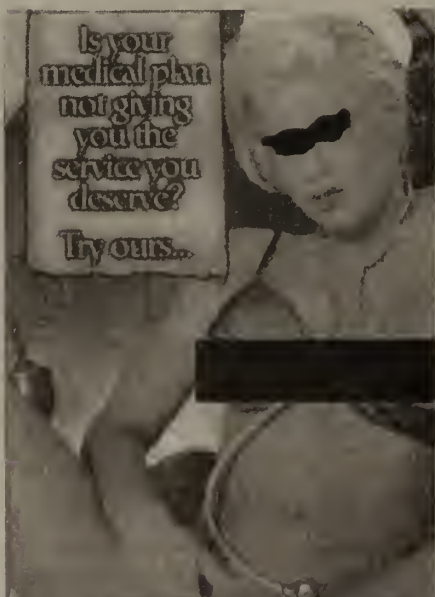

Dear Scared,  
The stories you have been hearing are probably not true. The only way that I can see blindness resulting from

masturbation is if you get something in your eye but even then you would need a lot of pressure to cause any damage. If you want to give up standard masturbation, try performing self-fellatio. Around a third of all guys can do it so maybe you can. I have the exact statistics in a Hustler, but all of the pages are stuck together.

-Joe Suehanssen

*All correspondence with Joe Suehanssen should be sent to [toike@skule.ca](mailto:toike@skule.ca) with the subject line "Joe Suehanssen". Alternately, letters can be dropped off in the Toike Mailbox in Eng Soc.*

## Dead F!rosh's Video pick of the Month

**Naughty Student Nurses**  
Rating: Ages 14 +

I learned from Matt to blank the eyes on Tina, cuz I kinda don't have permission to print her. This movie deserves **Pick of the Month** because it has in it what we all love, NURSES!!! The plot in this movie is truly original, one scene shows a nurse giving a patient "physical therapy", it

kinda makes me wanna break my own legs just to have her give me a "treatment". Unfortunately, you're going to have to look a little further than Blockbuster to get a hold of this movie, but keep your eyes open it might come to SF1105.

Learn to sleep standing up, or sitting, in a provocative pose, with your eyes open, and your head nodding in agreement. Although this may look stupid to the average passerby on the street (But seriously, who is the average passerby? They're stupid anyway! Stupid burger flipping commerce...), and your family or roommates may start to avoid you, it will let you seem attentive in lectures, and you may just osmosis some of the lecture through subliminal suggestion. Either that or you wake up thinking you're a chicken.

### On failing :

Just make sure you go screaming : "I regret nothing!!!"

Or maybe something stupid like : "Will I dream?"

be part of the funniest show on campus:

**NO TALENT REQUIRED!**

**Auditions** will be held in early **October**. Look for **signs** with further details. **Sign up to be involved in crew** to help with: lighting, sound, set/prop construction. To get involved, to get information and to get funky, email [skulenite@skule.ca](mailto:skulenite@skule.ca) or visit [skulenite.skule.ca](http://skulenite.skule.ca).

**-- Notes --**

Notes is a section of the Toike where you can write whatever you want: class notes, Frosh leedur autographs Frosh phone #s whatever. You can even pretend that you contributed to this Toike. To really contribute and save us from using this blatant filler email [toike@skule.ca](mailto:toike@skule.ca)

# The Toike Puzzle

This month's Toike Puzzle is a wildcard character wordsearch. That means that in addition to normal letters, there are symbols and wildcard characters (?, \*) from popular operating systems. See if you can find these words:
